WELCOME TO KIWI HOUSE

Kiwi House is a family-run care home in Alvaston, Derby, providing residential, dementia, respite and day care. Our welcoming and compassionate team provide person-centred care, tailored around each individual and their own unique needs and preferences.

Kiwi House has six separate care suites, each with their own restaurant style dining room and lifestyle kitchen. With a range of lounges and relaxation areas, residents can find the perfect mix of social interaction in our beautifully decorated communal areas or privacy in our well-equipped and spacious ensuite bedrooms. Overlooking Kiwi Park, our beautiful sensory gardens with patio seating areas provide the perfect place to take in some fresh air.

LIFE AT KIWI HOUSE

We host a varied and engaging programme of activities and events, designed to enhance residents' physical, mental, and spiritual well-being. From creative pursuits to regular visits from local performers and entertainers, religious services, and local outings, our activities are curated to inspire and engage our residents.

Residents living with dementia are supported with sensory areas, reminiscence activities, and memory boxes to encourage a sense of peace and belonging.

A wide choice of lifestyle facilities throughout the home includes a Hair & Nail Salon for a little pampering, café for residents and visitors, and our own pub, The Woolpack, where residents can enjoy catching up over their favourite tippie. Another firm favourite is Flicks Cinema where showings are always residents' choice!

Our dedicated team are always on hand to ensure Kiwi House is a true home from home.
